EM - Strasbourg Business School ● *Bachelor in European Management*

September 2017 - May 2018

WORK EXPERIENCE

JP Morgan Chase

October 2018 - Now

● *Global Clearing Operations Analyst*

The primary responsibility of the position is to provide comprehensive support to the day to day operations for derivatives and other banking products, within the Corporate Investment Bank. As part of the EMEA markets is my role and responsibility to be able to process and clear all market operation, provide quick and effective response to clients and partnership with multiple groups within the company such as technology, finance and other operation teams (India, Chicago and UK) to guarantee a correct daily workflow. Identifying opportunities for process improvements and value-added initiatives is another key aspect in the role.

Monsanto

March 2017 - September 2017

● *Global Trade Intern*

Responsible for the monitoring of export and import operations of the different biotechnology business lines. As part of my task I was also responsible of process improvements in order to reach a lower lead time.

Bomin Bunker Holding GmbH

April 2016 - March 2017

● *Operations Analyst Intern*

German company dedicated to the trading of marine fuels. Sale, coordination and assistance in the sale of marine fuels. Client tracking and documentation. Analysis of the naval market and contact with subsidiaries around the world, especially with Hamburg and Singapore.
